Re: **Notice of *Ex Parte* Meeting**
Amendment of Part 90 of the Commission's Rules to Provide for Flexible
Use of the 896-901 MHz and 935-940 MHz Bands Allotted to the
Business and Industrial Land Transportation Pool
WT Docket No. 05-62

Dear Ms. Dortch:

On behalf of the Florida Power & Light Company ("FPL") this is to provide notice of an *ex parte* meeting held on June 23, 2005 regarding the above-referenced docket. Tim Lewis, Radio Operations Manager of FPL, and Jeffrey M. Karp and the undersigned, both attorneys with Swidler Berlin LLP representing FPL, met with Kathy Harris and Michael Connelly of the Mobility Division and Scot Stone of the Public Safety and Critical Infrastructure Division of the Wireless Telecommunications Bureau.

At the meeting, we discussed issues addressed by FPL in its comments and reply comments, including the public interest reasons for setting aside 99 channels at 900 MHz for private internal use to be licensed on a frequency coordinated site specific basis, the need for interference protection rules at 900 MHz similar to the interference protection rules adopted by the Commission at 800 MHz, and the reasons for dismissal of the pending 900 MHz applications that are not intended for private internal use.

Very truly yours,

/S/

Eliot J. Greenwald
